DATE OBTAINED DATE PREPARED 2 September 1953 REFERENCES 25X1 PAGES ENCLOSURES (No. & TYPE) REMARKS 25X1 On 10 August 1953 REMARKS 25X1 On 10 August 1953 The Ad gum emplacement in the western section of the field was not occup radio mast, 8 to 10 meters high, with a spiral device on top was observed xinately in the middle between the westernmost henger and the western ed field. Just next to the mast was a radio truck with an antenna of the RU and a radio truck with a rod antenna. No training activity was observed were engaged in construction work on a bunker east of the target renje. I vehicles observed entering and leaving the field included trucks with a rod antenna. No training activity was observed were engaged in construction work on a bunker east of the target renje. I vehicles observed entering and leaving the field included trucks sedan and radio truck with a rod antenna. No training activity was observed were engaged in construction work on a bunker east of the target renje. I vehicles observed entering and leaving the field included trucks sedan and radio truck with a rod antenna. No training activity was observed were engaged in construction work on a bunker east of the target renje. I vehicles observed entering and leaving the field has been vacant. Comment. The aircraft observed at Schoenwalde airfield are believed that the tow-target unit was transferred to Welzow. However, no confirmation has been received from Welzow airfield, Only once, on 3 June information has been received from Welzow airfield, Only once, on 3 June information has been received from Welzow airfield, Only once, on 3 June information has been received from Welzow airfield, Only once, on 3 June information has been received from Welzow airfield, Only once, on 3 June information has been received from Welzow airfield, Only once, on 3 June information has been received from Welzow airfield, Only once, on 3 June information has been received from Welzow airfield, Only once, on 3 June information has	5X1
